HEARING PROTECTION

We recommend hearing protectors with the highest Noise Reduction Rating (NRR) available. If you already have hearing loss, a hearing protector with a lower NRR may be recommended. Questions? Call us at 800-343-7527.

EYE PROTECTION

When used properly, eye protection can prevent eye injuries from small and flying particles, chemicals, and radiant light. It is important to not wear contacts when working with chemicals or fine particles, as contacts can trap these materials between the lens and eye leading to further damage. All safety glasses meet ANSI Z87 2003 standards and offer 99.9% UV-A UV-B protection.
