HEARING, EYE AND CHEMICAL PROTECTION.
We recommend hearing protectors with the highest Noise Reduction Rating (NRR) available. If you already have hearing loss, a hearing protector with a lower NRR may be recommended. Questions? Call us at 800-343-7527.

Earmuffs
Earmuffs with lightweight, stainless steel headbands resist bending and warping. Liquid/foam filled earmuff cushions provide a comfortable fit.

Replacement Hygiene Kits
Extend the life of your earmuffs by replacing worn out cushions and dampening foam. Each hygiene kit contains one pair of cushions and one pair of dampers.

When used properly, eye protection can prevent eye injuries from small and flying particles, chemicals, and radiant light. It is important not to wear contacts when working with chemicals or fine particles, as contacts can trap these materials between the lens and eye, leading to further damage. All safety glasses meet ANSI Z87 2003 standards and offer 99.9% UV-A UV-B protection.
